Visualize the added space a Garden Window gives to any room. Seaway's Garden Window is truly unique and allows you to customize with many options available. Indulge in the simple luxury of a Garden Window.

Products Built for a Better View

GARDEN WINDOW

Bringing in the Outdoors

Seaway's beautiful Garden Window not only adds value to your home, but has many energy saving benefits. Its all vinyl frame and non-rusting hinges are low maintenance—looking great for years. Good looks are backed by Seaway strength, fusion welded corners, multi-hollow vinyl extrusions, and patented

PPG intercept warm edge glass. Operating vents open back to allow for efficient two-sided ventilation. For the budget minded, you can bring in the outdoors with the Seaway Garden Window which has all the basic features incorporated with a two piece roof and picture window system.

Once you decide that only the best will do, you'll decide on a Seaway product. A product with a written lifetime warranty from an established manufacturer and installed by a quality dealer is a good investment in any home.
